As a direct result of this work, the CPER team was subsequently commissioned to undertake two further stages—extending the model to account for periods post-sentence, remand and movement between orders, and developing a cost-benefit model specifically designed for women in prison. Ramiro Martinez Jr. During the year, over 20 presentations were given at conferences in Australia, as well as in diverse locations such as Cambridge, Wellington, Hong Kong, Bordeaux and Mexico City.

It also facilitates the communication, transfer and adoption of findings in These were community crime prevention, violence and harm prevention, graffiti prevention, cyberbullying and internet safety, and online protective behaviours. This Brief provides specific recommendations for police professionals to reduce the influence of implicit bias on police practice, which will improve both effectiveness in a shift towards evidence-based, rather than bias-based practices and police legitimacy. He is currently conducting research on public safety concerns in an urban setting in Ontario, Canada, and is analyzing data on young offenders' adjustment to incarceration.

The aim is to extract, synthesise and hypothesise theoretical and operational AIC will consider all recommendations until finalisation of this process.
