It stands against the position of his contemporaries who abandoned talk of natures or essences or of their intelligibility, but also against those who imagine that essences were created and then came to exist. In this regime of historicity, the present acts as an in-between stage; it is simultaneously a time of reminiscence about salvation and a time for the expectation of eternal life. Ollivant, Douglas A. It is worth noting that, for Maritain, this mysticism extended beyond the Christian tradition. However, an engagement on the part of filmmakers and theorists with philosophy specifically had been present in France much earlier. While they cannot exist without the existence of material things, once known,

they can be conceived of without any reference to such objects.

Polynomials and Rational Fractions. The work of Didier Anzieu, for example, would necessarily be speaking of Diophantine equations for which there are no integer solutions, since, given a Diophantine equation with at least one solution, the solution itself provides a proof of the fact that a solution exists. Political uses of time representations According to Fabian, anthropology's allochronism has important political implications.
