The heat and flames would also mess with accuracy as it would alter the flight pattern of the arrow. The idea of a hunting blind, for those who are not familiar, is to create a hiding place near a game trail or other locale where an animal will likely appear. If I remember correctly, I was hunting a white-oak stand, and I had a small spike buck come by. Most trainers will tell you that you have to release between one breath and You look at what these other bowyers did, and read about the mistakes they made, and the things that worked for. The lower limb is placed on the ground on the outside of the opposite foot. Maltese: Yeah. A recurve bow is a bow with limbs that curve away from the archer when unstrung.
