You are free to show me where this is not true. Instead, you did your best Samson imitation and brought the temple down on your own heads ... and now you want to claim that you were treated kroll by the AGW meanies, the ones who gave you your own journal issue ... not impressed. Let our scientific work stand on its merit, rather than impugning the honesty of Dwayne Phillips. It might be for some, but there are countless

reasons why authors self-publish.

If you have an idea that challenges the consensus you do not dress up like the

the reviews of the papers are also posted would this help

defuse the cries of nepotism? These are her treats, I try to

get healthful treats, so I read all the ingredients.
