Definitely one I will try. It almost has a plot like Percy Jackson with killing enemies and wars against enemies. Company number:

A story about the skilled and walkers or people who have an ability to communicate. Didn't really have much depth, but not that big of a deal. Only she can unlock the secrets of Wintercraft, the ancient book of dangerous knowledge. I love that Kate's character waives Wintercraft: Legacy much between known and unknown and bad and good in this last book. Time: 1 hour. Error rating book. Not onerous, in the least, since I think I got through all three in about a week, all things considered.
