Users can then not only choose who can see and read each message, they can also explicitly and publicly address one or more people, thus positioning others as overhearers who are nonetheless authorised to participate. This process is experimental and the keywords may be updated as the learning algorithm improves.

Routledge eBooks are available through VitalSource. It is through the creat

Mondada, L. Her main interests are in the field of interpersonal interaction and interaction with and through digital objects. But behind this labelling, networks can be interconnected and muddled: "friends" from Facebook may be colleagues, neighbours or customers, "connections" on LinkedIn are sometimes more friends or acquaintances.

Bennett, S. Dong Jie. Jonsson eds.
