No, cancel Yes, report it Thanks! There is no confirmed
evidence for its use prior to the 1st millennium BC, though
there are unconfirmed reports of an Old Babylonian tablet
which apparently describes the vessel of Atra-hasis, the
Sumerian. Controversial issues, including the nature and
significance of the antiquities market, ethical considerations
in archaeological praxis, the history of the foundation of
departments of antiquities and ancient attitudes towards the
past, make this a unique collection of studies that will be of
interest to scholars, students and interested readers alike.
